BRITISH POLITICS AND GOVERNMENT BOUGHT AND SOLD TO THE HIGHEST BIDDER

THE MAJOR BRITISH POLITICAL PARTIES ARE ALL FOR SALE TO THE BIGGEST WALLETS. INTERNATIONAL FINANCE BUYS AND SELLS OUR GOVERNMENT MINISTERS. INTERNATIONAL COMPANIES BUY AND SELL BRITISH WORKERS.

The First half of the 1990's has seen an unprecedented level of interference in British politics and the British economy by international finance and major overseas financial interests. In recent weeks the usual compliant national media has revealed the existence of the so-called 'Premier Club", where donations to the Conservative Party by major business interests are disguised as membership payments to an exclusive diners club. For the mere payment of £100,000, a top businessman can dine with the Prime Minister and express his views and opinions'over the period of one year; for £10,000 a year, dinner with assorted cabinet ministers is laid on. it is no secret that those who regularly inject large sums of cash to Conservative Party funds are rewarded with knighthoods, prime seats on company boards etc. Between 1979 and 1992, 18 life-peerages and 82 knighthoods went to 'industrialists and financiers' who had directly supported Conservauve ParLy funds. Before all the General Election campaigns of the last twenty years, massive sums of money have been injected into the Tory Party by so-called business interests' just how much influence these donations have on policy and securing goverrrrnent approved projects and contracts can only be guessed at, but consider this;in 1993 the construction magnate Lord McAlpine confirmed the existence of numerous offshore accounts into which donations for the Tory party were paid. Drummonds Bank-Free Enterprise A/C was one such outlet which received over £300,000 from British United Industrialists in 1986-87 In an even more sinister tone is the number of foreign 'investors' in the British political system, the fugitive Turkish Cypriot tycoon Asil Nadir is reputed to have donated over £440,000 to the Tory party; prior to the 1991 General Election, £7 million came to the Conservative cause from foreign business backers.There are rumours of massive cash sums to the Tories from foreign backers in the Far East, Hong Kong, the Arab and Gulf states, USA and certain Middle East elements. John Latsis the Greek oil and shipping magnate gave £2 million to the Tories in 1991, Li Ka-Shing the Hong Kong Chinese millionaire gave £1 million in the late 1980's, and the Sultan of Brunei is reputed to be a major private doner to the Tory cause. The list of foreign businessmen could go on and on, but what kind of returns do the British government give them for their support?

The Labour Party ended the last General Election witb debts of around £2 million despite the traditional heavy donations from the Trade Unions and the fringe 'champagne socialists". It is well recorded that despite years of ineffectual opposition, the Labour Party received large donations from the corrupt media magnate Robert Maxwell, in fact Maxwell liked to present himself as having major influence on Labour policy making. The new look Labour Party built around Tony Blair and his middle-class cohorts is desperately trying to woo the kind of financial backing the Conservative party receives, we can only guess as to the kind of favours that a Labour government would make in return for the funding of a successful election campaign.

As a final sickening note, a huge South Korean electrical company has recently opened a massive industrial complex in South Wales. There has been much official trumpeting of the success in attracting this Asian investment and the jobs it brings, pretty much in line with the Japanese car factories in the North-East of England. Nothing has been said about what persuaded these industries to locate there, what tax-concessions, what prime-site grants and freebies or other inducements. It has come to be a sad day when British workers have to be grateful to overseas industrial power for jobs, especially when our country once led world industrial output.

Editorial

The British National Socialist Movement, (BRITISH MOVEMENT), is committed to totally changing the political, social and economic system in Great Britain. There can be no other answer to the corrupt and ramshackle system which now attempts to control this nation and drags the population of these islands into ever deepening distress. There cannot be any attempt to repair or revive the current failed system, it has failed and must be replaced totally. The so-called democratic, constitutional monarchy government by Parliament has run its course and proved wanting. The political parties currently vying for control of the House of Commons (and House of Lords) have successively ruined this nation in just over a century. Their policies and ideology are all rooted in a financial and economic network which has created the problems we now all face. The major political parties are all trying to rework and rework a discredited and failed system, which will again fail, theirs is a house built on sand.

The only answer for our nation's future is to look forward, not backwards, we must ditch the existing political system in its entirety and replace the "Old Corruption" of Westminster with a radical and new ideology built on the principles of Race and Nation, Blood and Soil, Family and Folk. National Socialism is rooted in Nature and the ancient principles of lore. The greed for economic gain and the grubbing of international finance will no longer steer our national and international policies. Our people and our folk communities will come first. National Socialism will build Britain to greatness and our example will rekindle the greatness of a new Renaissance in Europe as each of Europe's nations follows suit. But this cannot happen as long as our people prop up the rotting carcass of the present political and economic framework.

The British National Socialist Movement looks towards a future without the stranglehold of international finance, without the internal stranglehold of class privilege and Masonic double-dealing. The future must see the reduction in our national population by the expulsion of all those who are not of our race or who have abandoned their racial identity by racial intermarriage and miscegination. The future must be built on National Socialist ideology in all things, false divisions of religion and class must be swept aside as the Folk Community takes shape. National Socialism is the only way forward, it is the future.

We work now to build the future, to reject the society built on the mistakes of the past, we build the foundations of a New Order, brick by brick, family by family.

TOMORROW BELONGS TO US!

WE BELIEVE....

RACE IS ALL. Our folk must again respect their past and strive towards their great destiny. We must instill in all generations an awareness of the importance of Race and purity of blood. Mongrelisation destroys the heritage and stifles all future achievements. Our civilisation is secure only in purity of Race and belief in destiny..

MONEY THE SERVANT A stable economy is one which reflects the true worth of the community. Money is a mere token of this wealth- a means of exchange to allow convenient trading of goods and services. The modern notion of money controlling the people must be broken and a total change in the finincial system is required

A PART OF NATURE We must ensure that the beauty and resources of our earth are preserved for the benefit of future generations of our folk. We must not waste or destroy the natural order-the balance of which is so vital for the well being of all life. Our new moral code will not allow scientists, businessmen and politicians alike playing at god in the name of curiosity, monetary gain or profit.

BEYOND CAPITALISM AND COMMUNISM The ideologies of the old world strive for the total enslavement of all peoples. We are against the materialistic rat race of lust under Capitalism as well as the monotonous drudgery in the grey bureaucrats of Communism.

EUROPE A FAMILY The peoples of Europe stem from a common racial root. We must enjoin in spiritual union for the defence of our freedoms against common enemies. Our strong Race founded bloc will scale new heights in all fields for the advancement of our vibrant culture.

THE ETERNAL STRUGGLE Mankind must continually strive for higher, better life-struggle for a brighter, more nobel world. Each day must bring new challenges in the perpetual struggle towards greater civilisation. There can be no perfect world but our folk must strive towards its improvement leaving behind the decay of todays moribund world.

The thoughts and ideology of National Socialist Resistance

The "Oh Shame!" Syndrome. The Aryan Race tends to blame all their ills, disasters and destruction of civilisation on the "enemy".

That the age old enemy of the Aryan peoples has to carry the greatest burden of blame is true, but the fact is that we as a race are also to blame, and that fact cannot be ignored.

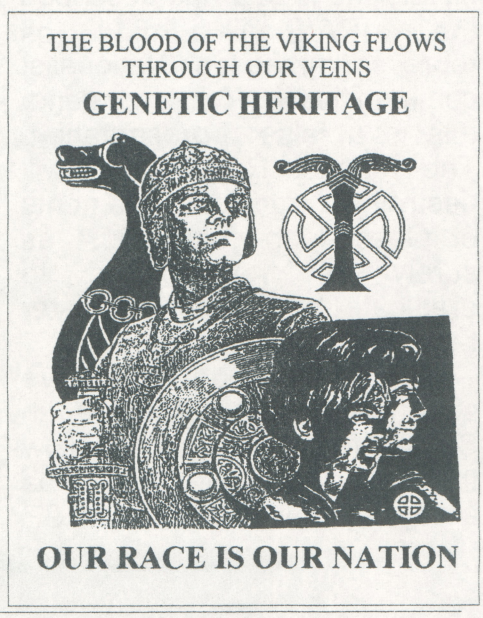
The blame that the White Aryan Race has to carry is its own weakness to be led by the nose, to be influenced too easily. It is not just that the "enemy" is so strong, (although they control and manipulate opinion making on a massive scale), it is a fact that we have become weak willed and open to easy persuasion. This attitude has stemmed from our willingness to feel sorry for the under-dog, for the lesser races, and the underman will in the end be his downfall and that does not exclude the extinction of the race as such.

We of the Aryan Race, the "Arya", have been born with compassion, on the one hand not a bad thing, but oflen misdirected or wasted and detrimental to our own health and well-being. We have in the first place not done the black races any service by bringing them into our civilisation and culture. All in all, we with compassion, or our way of reasoning what is right or wrong, took them out of their natural environment and left them virtually without roots. The lack of understanding we have shown to the fact that other races have an inborn hatred towards a civilisation they can-not understand or accept.With this "Oh Shame" attitude we have allowed the unrestricted influx and interbreeding of racial unassimables. Now with sheer numbers we are being swamped into chaos. Now under the pressure of the enemy, the Aryan Race is succumbing to majority rule, as we become the new minority.This pattern started in North Africa, has now taken South Africa and in the near future will claim Australia and the USA. Europe and the United Kingdom will not be far behind. With Europe and the United Kingdom falling under the pressure to allow more and more non-whites in, the future of Aryan man looks bleak indeed. The end rest of this idiocy will be that no race on earth will be able to find its own roots.

The solution to this problem must be a stronger Will. More compassion to our own as this channeling of that weakness can become a strength to be reckoned with. But the Aryan needs knowledge and he must show his willingness to search for the truth as only the truth will set us free. Through lack of knowledge the White race will be destroyed.

The influence of the media on the emotions and compassion of the Aryan is immense. The sad part of it is that the White race became too soft, too civilised and too scared to open its mouth, not even to speak of taking a stand. We have allowed every other to walk over us, because we wished to be decent. This decency to all comers wilJ cost us our lives and result in the annihilation of our species.

Even amongst the Far-Right there is the line that must not be crossed, we are still fighting a "gentleman's war". This of course is nonsense. The last "gentleman's war" was the Anglo-Boer war and that ended with civilians in concentration camps. No war or baule after that has been fought in a "civilised" way. War is not to be desired, but if that is the last resort to save the Race, our future, our civilisation and soul, it must be fought. It is time that Aryan man understood that **Race is the foundation of all.**



NO SURRENDER TO THE IRA!

REPUBLICAN TERRORISTS ARE NOT IRISH NATIONALISTS

Marxist Republicans will destroy Loyalist Culture in Ulster and Irish Culture in Eire.

Provos and INLA seek to create Cuban style 'socialist Republican state': Mandela and the ANC is their role-model.

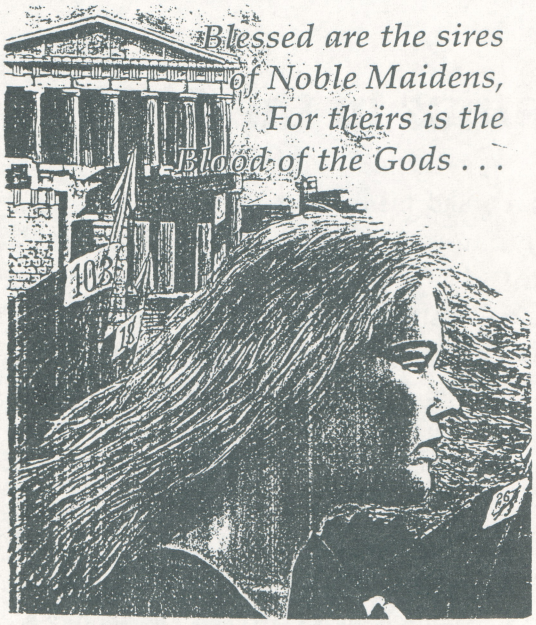
The collapse of the ceasefire in Ireland and Ulster should have surprised no one, only the British and Irish governments seem to have been taken in by the so-called ceasefire which was really a strategic move by the terrorists to gain time to regroup and re-equip.

The Irish Republican organisations; Sinn Fein, Provisional IRA, INLA, and assorted criminal subgroups are all dedicated to the creation of a Marxist-socialist revolution in Ireland and have often vowed that once the 'armed struggle' has triumphed in Ulster then they will turn their guns on Dublin. Too often in recent history the media has described the IRA/Sinn Fein as representing the Irish Nationalist communities in Northern Ireland, this is a false representation. The Marxist Republicans will destroy all traditional elements of Gaelic-Irish culture just as surely as they intend to eradicate all traces of Ulster Loyalist culture and heritage.

The Irish Republicans have seen the triumph of the ANC in South Africa and seek to follow that example; the ANC has always been linked to the SACP (South African Communist Party) and Sinn Fein sees itself in a similar political role. The IRA sees itself in the same role as the ANC's former armed revolutionary wing "Spear of the Nation", (Mkhonto we Swizwe). The terrorist tactics hand in hand with a political struggle are identical for both Ireland and South Africa, the Irish Republicans believe that they can recreate Nelson Mandela's victory through the hands of Gerry Adams and Martin McGuinness. The future for Ulster does not look good as bloody civil war is the only possible outcome as the PIRA or INLA terrorists seek to destroy the political, economic and social stability of British Ulster. All elements of Ulster Loyalism will be targeted and murder will explode across the Six Counties as the Republicans indescriminately seek to destabalise and demoralise the Protestant communities.

If the Marxist victory is ever allowed to happen, the Irish Catholic peoples will not be cheering for long as the Republican commissars set about politically correcting all aspects of Irish culture including the Catholic church which the bulk of the Irish population have been conned into believing that the Republicans want to protect. The Provisional IRA and Sinn Fein has long been the darling of the British political Left, just as the Anti-Apartheid movement/ANC/ Nelson Mandela was and is held in veneration. The Provisional IRA grew out of a split in the Republican movement back in the late 1960's during the early stages of the modern "Troubles" the so-called Official IRA were the old time pro-Moscow Communist elements and the Provisional IRA were the newer, radical elements seeking to emulate South American Marxist revolutionaries and the African groups like the ANC and MPLA.

So far the Provisional IRA and the smaller mad-dog elements like the INLA have failed to break the resistance of the British Army,(backed by the Secret State) or the vigilance of the Loyalist communities and their self-defence organisations. But time is running out as the Republicans have swung the international political machinery of the "New World Order" and the European Union round to giving them credibility. The example of the old terrorist Mandela and his Marxist victory in South Africa has given them hope and has convinced them that the Mandela/ANC combination of armed struggle and international political double-dealing can work. There must be no surrender to this evil chicanery.



National Socialists are the guardians of Aryan values and Aryan heritage. Our Aryan women are to be honoured and revered not only as the mothers of our children, but, whenever there is ability and inclination, as viable fighters and leaders in the great struggle against the forces of democratic degeneracy. A strong and capable women is our Aryan heritage.

BLOOD AND SOIL : BRITAIN AWAKE ! SHIRES AWAKE !

Britain once was a place of pride and honour with industry thriving, architecture great and beautiful and a countryside that made men weep when they left it behind.

Its people were drawn from the backbone of the land, the "working-class", often poor, the only thing many owned was just the clothing on their backs, but their pride and loyalty to Britain was worth more to them than any amount of gold.

Today the society of our Nation has split. In the inner cities people have forgotten what community spirit means and have no bond with their neighbours, no sense of identity. The spirit of the tower blocks and sink estates is "dog eat dog", self first and to hell with the consequences. Burglary, prostitution, fraud, car crimes, drugs and sex offenders and worse inhabit the forgotten corners of the city landscapes. The abandoned areas are a mess and getting no better.

The ordinary people have been forgotten by the city planners and there are not enough jobs to go around. Those jobs that exist are low paid and far removed from a decent living. Most ordinary people are in debt up to their eyeballs and struggle to support themselves and their families. Teenagers leave school with little hope and heads filled with alien ideals and the ideology of consumer spenders, they are taught to mock traditional values and the history of our Nation. The elderly are cast aside by the system and treated like dirt after lifetimes of service to the community and Nation.

The Justice system has completely betrayed those it was created to protect. The Police act as an army of occupation, the rule now is "guilty until proven innocent". All political protest is controlled by the Public Order Act

Politicians from all the major political parties have totally sold out "Old Blighty" and its people , the only difference between them is that the Conservatives will always get the best price for the sale.

The Churches have lied and deceived for centuries, betraying the trust of the young and old while sheltering behind the house of the "Lord".

The polticians are getting ready to fight another election and promise to make things right, but it was they and their predessors who created the mess in the first place. The system polticians condemn National Socialism and lie about National Socialism, and fear that truth about their own acts will come out. National Socialism has direct answers to all the problems our nation faces; it is the power of community, love for the folk in every man and woman of our race and nation. It is the cure for the sickness in our country and it is time to use it. Those who stir up hate against the National Socialist movement are the same people who are responsible for our nation's ills. They are the ones with something to hide.

With vision, caution, action and financial support, National Socialism can change the whole direction of Britain, to make it a power in the world once again.

British Movement does not intend taking the "fun" out of life, but wants to put Britain and the real British people first.

National Socialism will have its day and the Capitalist, materialist system which has failed will go under, together with the people who have supported it and profited from it at the expense of our Nation and Folk.

"Words from the Heart by B."

More Unorthodox Opinions by Jeff

Never in the field of human conflict has national pride been so ridiculed as the present status of; The British Legion.

As a young boy, one summer day about noon, I looked upwards into the sky. Drones of aircraft passed overhead. They flew low, the white markings visible for all to see, our lads were on their way, in defiance, to defend kith and kin.

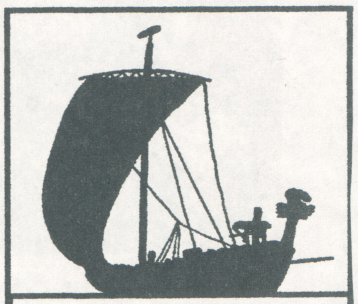
I knew many of the handsome young men and women who, I am sure, did not know or realise the futility of the conflict. They could not possibly have had any notion that they were to defend not only their own right to be of the British Legion, but the right of international monetary power by governments and big business to infuse into this my homeland, to which our lads and lasses sacrificed their lives and broke the hearts of their parents. Even to this day loved ones remember the bitterness of loss of cherished ones, and for what?

Those passed and forgotten loved ones, who are now remembered by a few who have nostalgic memories of fallen comrades, who assumed they fought for sanctity of loved ones, must now be remembered by younger generations as passed history. And the younger ones realise not, that the legions of British soldiers and allies fought not for the ideology of cosmopolitan money, or the power of contemporary governments to allow contamination of those lads' pride and deaths to be divested of their sacrifice by the now British legion of 'ethnics'.

The true British Legion is now in a state of 'non compos mentis', the representatives of present day governments are in my personal view nothing more than descriptive non-descripts. Meaning: not worthy of acceptance within the hearts of the magnanimity of the true BritishLegionaires. Within and from my heart, I state with all my integrity "Honoured Legionaires of Britain"

Taking all into consideration; the field of human conflict is now emerging, I enter the field of conflict to keep my country for my kin-folk. Also the right of all nationalists, whatever their country, to keep their borders for their own folk. To be free of all impurities of national pride, to accept past mistakes of barbarous war; to unite friendships of the ideology of National Socialism in respect of national pride and their borders.

To this end I strive for value of the few. Never again must the value of the few be lost in memory, it must not be allowed to be drained in value to enhance the Zionist-occult, rootless cosmopolitans.



Father and Mother

I think we'll always be fighting
against this land, never comfortable
living
with it-transplanted Teutonics and
Celts
trying to make a home
four thousand miles from the ancestral
graves
we long to climb into, to complete
the cycle, to end the song buried deep
beneath our skins,
the voices
that will never let us sleep
until we're back
in our own old beds.

Nationalism in the Past

The British Nationalist Summer Camps in the 1960's

Continuing the historical series, BROADSWORD looks at the racial-Nationalist summer camps of the 1960's held by the White Defence League, Northern League, National Socialist Movement (NSM), Spearhead and the 1960's British National Party.

The first summer camp to receive media attention was held in Kent in the summer of 1960, the 'North European Summer Camp' was organised by the BNP and drew delegates both from Britain and Europe, a small gathering of Nationalists and National Socialists drawn together under the umberella of the Northern European Ring. Building on the success of the 1960 camp, another was held in May 1961, this time in Norfolk, at Narford on land belonging to the BNP party president Mr. Andrew Fountaine, with invitations also extended to the USA based National States Rights Party. Photographs of the time show assorted delegates under canvas and around campfires, some dressed in civilian clothes, some in paramilitary uniforms. The camps were intended to run over the period of a week and delegates could elect to stay over for a minimum of three days or the full week, all the equipment was supplied by those taking part. A key feature of the camps was the night-time torchlight procession followed by the lighting of a Sunwheel emblem high on a pole. The 1961 camp drew foreign delegates from Sweden, Germany, Austria, France and the USA ,with delegates from Denmark, Italy and Belgium being refused entry to the UK by the Home Office. Despite the government interference and media hysteria, the camps were usually peaceful and well organised.

Unfortunately in subsequent years the summer camps drew increasingly hostile media and official attention. The NSM summer camp in August 1962, was organised by Mr Colin Jordan and saw the American NS activist and leader of the American Nazi Party, George Lincoln Rockwell smuggled into the UK to attend the camp in the Cotswolds. The camp was the venue for the founding of the World Union of National Socialists (WUNS) and the famous Cotswold Declaration.(reproduced as part of this series in issue No.5 of BROADSWORD).

The Cotswold camp was invaded by a mob of local hooligans at midnight, incited by the media the camp site at Guiting Power in Gloucestershire became a battlefield between the mob and the NSM members, a swoop by over seventy police officers sealed the camp's fate.

Three days after the smashing of the Cotswold camp, the Special Branch raided the NSM HQ in Princedale Rd. London and the infamous "Spearhead" trial saw the end of the NSM and the summer camps of the 1960's.

THE FAILURE OF THE LEFT

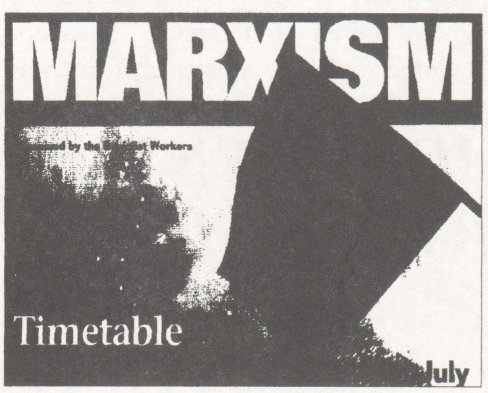
Every year the assorted organisations of the extreme-Left meet for a weekend of meetings, lectures and political workshops under the slogan "Marxism '95,' or "Marxism '96" or whatever year it happens to be. The annual jamboree is an opportunity for the parties of the revolutionary Left to debate the minutae of Marxist/Socialist politics and convince themselves once again that they are a political force in both domestic and international politics.

The event is designed to provide a focus of Marxist thought and every brand of Socialism, Communist, Maoist, Marxist-Leninist and Trotskyite is represented either amongst the speakers or amongst the paper sellers and bookstalls.

The sad fact about the Left is that they still believe that they can stage a re-run of the 1917 Soviet revolution but this time avoid the emergence of a Stalin or a Beria, if only history and the political climate would give them a chance, if only, if only Another sad fact about the Left is that the bulk of the working-class want nothing to do with them or their brand of politics. The so called "workers" of the Left are usually disillusioned middle class college drop outs and self-hating rich intellectuals. The likes of Tony Benn (formerly Viscount Anthony Wedgewood Benn) and Paul Foot are typical examples of this element.

These Leftwing thinkers constantly debate and evaluate why the "Revolution" has so far failed to produce the desired 'dictatorship of the proletariat' and world government of democratic socialism. The constant fight for a One-World state of Internationalism never seems to get any closer.

The Left agree on one thing, they despise any form of White Nationalism and White racial pride. Fascism and National Socialism are the political ideologies which provide the focus for their greatest levels of hatred.



Poster Produced by the Socialist Workers Party for their Marxism Ninety Six Workshops

Many on the Left believe their own propaganda and slogans when it comes to understanding what National Socialism or racial-Nationalism is about. Marxist writers insist that "Fascism" is a political force of the disgruntled middle-classes used by Capitalism to divide and control the "workers". What the Left cannot come to terms with is the fact that the bulk of all "Far-Right" organisations is made up of working-class support in total contrast to the organisations of the Left. They are equally baffled by the fact that National Socialist organisations are totally opposed to Monopoly Capitalism and international finance, because this does not tally with what their own Marxist experts have told them.

The Left desperately want and need to believe their own propaganda just as much as they believe that if they just wish hard enough they can recreate the 1917 Revolution at the end of the 20th Century.

Despite the collapse of the Soviet Union and the isolation of Cuba, Albania and Communist China, the Left still believe that the Revolution can happen. They have taken heart from the triumph of Nelson Mandela and the ANC in South Africa while conveniently ignoring the disasters elsewhere in Africa when Marxism takes hold; Angola and Mozambique being prime examples.

The Left will always be dangerous, like any infected part of the body, their presence in the body politic is cause for concern and a constant need for vigilance. The shabby newspaper sellers of the Socialist Workers Party may seem a pale shadow of Bolshevik revolution, but darker shadows lie in their background; the vicious, hate-filled activists of the IRA, INLA and similar European groups like ETA or the old Red Army Faction. We must never relax our guard.

THE WAY IT WAS

Recollections from the Britain of the 1930's

I often wonder why the Jews, with their continual complaints regarding anti-semitism, don't pause a while and examine their own behaviour, search for the "mote in their own eye", so to speak. Does it never occur to them that much of what they have received, they have asked for?

Why is it that every country they have seffled in has, in time, turned them out?

All my early life I lived amongst Jews, not in the grimy streets of the East End of London, but in the leaty suburbs of Golders Green and Hampstead. I went to school with them, worked with them, but never really knew them, as they made plain to us 'Goys', "You are not one of us The Jews of those days were overfed, overdressed and over-bearing, there was little love lost between them and the Gentiles.

When Adolf Hitler came to power in the early 1930's, we were swamped with yet another kind of Jew, they came in swarms from all over the Continent and the sound of Yiddish was as common on the streets as English. Notices outside shops and Police Stations were in every Eastern European language. The liberals and 'bleeding-hearts' then, as now, had a field day and rushed to assist these victims of 'persecution', and all help was accepted as a right.

A summer's evening walk on Hampstead Heath, a popular recreation in those days, always included a visit to the Whitestone pond, then a minature Speakers' Comer. There the crowd was harangued by young Jews spitting hatred against Nazi Germany and demanding that action should be taken and indeed world Jewry declared war on Germany in 1933.

As we poor old downtrodden British used to say in those far off '30's, "That man Hitler knows what he is doing to get rid of this lot, but why do we have to be lumbered?"

Mrs P.W.(1966)

BRITISH MOVEMENT

WHERE WE STAND

The British Movement is a National Socialist organisation and as such is dedicated to the creation of a mono-racial society based on the foundations of Family and Folk, Blood and Soil, Race and Nation.

Britain has sunk into a stagnant ditch as this century closes, what point is there in foreign policy when the government canot put our own country in order ? Why is Britain pumping funds overseas and interfering in other countries when Britain is in a mess ?

The political, economic and social chaos which Britain has become can only be resolved by a total break with the existing system, only through National Socialism within a new concept and a new system can the future be secured. A National Socialist New Order built on the principles of Race, Nationhood and citizenship of the Folk, understanding the law and applying the law of Race, Blood and Soil.

A.I.D.S.

The Affirmative Action Disease

As of January 1, 1996, an estimated 24 million people worldwide are infected withe the H.I.V. virus that cause A.I.D.S.

31% of this number are Negroids or people of predominantly Negroid ancestry.

Once a person is infected with the H.I.V. virus, they can expect to live an average of 7.5 years.

Assuming these figures will remain constant, and considering the number of Negroids in the world at present (250 million) as well as their average birth rate and other factors it can be calculated with precision that:

The COMPLETE GLOBAL EXTINCTION of the NEGROID RACE (due to A.I.D.S. infection) will occur NO LATER than the year 2022, and very possibly some years before that date!!!.

Anti-Nazi in court

SWEDEN: A Briton was due to appear in court today after being arrested at a neo-Nazi demonstration in the southern town of Trollhattan, allegedly armed with a home-made bomb. The 34-year-old from London, belieived to be an anti-Nazi demonstrator, was one of seven people arrested during Saturday's march that ended in violence as police battled to separate skinheads from anti-racist groups.

KNOW YOUR RIGHTS

In view of the governments new intrest in "internal security" it would be wise for all white racial activists to be made aware of some of the methods in which to protect themselves from government action. The security services, Special Branch/M15 are always around, snooping for bits and snatches of information. They ask questions of our friends and acquaintances about us and our activities. They attempt to delve into our personal lives in ways which if anyone else did would be illegal They seek information from those who may know nothing of the activities being investigated, sometimes breaking into homes or just generally harassing people.

It is public knowledge that one of the pnmary goals of the security services is to crush the white racial movement through harassment, prosecutions, and undercover disruption. The budgets of police departments may be shrinking in other areas but when it comes to investigating us the budgets soar. When it comes to the suppression of White resistance by the establishment money is no object. The lines have been drawn and their orders are to ; divide, disrupt, intimidate, slander and jail people. They are especially eager to capture those who have been forced or have chosen to go underground; to cut off the support of their friends; and to paint the
entire racial movement as a criminal enterprise. There is ONLY ONE WAY to deal with this: **REFUSE TO TALK!**

Some of us get scared when the police come to the door. We answer a few 'simple' questions because we are afraid not to-afraid of committing some crime by not talking or provoking more intense curiosity. There is no law requiring you to talk to the police. You do have to let them in if they have an arrest or search warrant, but you still don't have to talk to them. ENSIIRE **THAT YOU EXAMINE THE WARRANT BEFORE YOU LET THEM IN TO SEE THAT IT IS IN ORDER.** It wouldn't be the first time that the police have tried to gain entry with an unsigned , out of date or undated warrant. If your arrested you have to identify yourself but there is no reason to say anything more. Despite the recent removal of the right to silence you still have a legal right to a lawyer and to refuse to answer questions. Remember that the right of silence was removed because the police were finding it impossible to prosecute people who kept their mouth shut, it's a sad fact that people that talk to the police often land themselves in trouble; we've all seen the programmers where the 'criminal' drops himself in it. Don't think that your too clever for this too happen
remember the police have had years of training in tricking people into saying things they should not. Its easy to provoke any investigator to intense curiosity: it is the slightest hint that pressure tactics may budge you from total non-cooperation. ANY co-operation whatever supplies that hint. No policeman ever asks idle questions; there is no such thing as sm~l talk with a trained interrogator. A long answer, a short answer, a truthful answer, a lying answer - any of these supply some sort of information which is of use to the State. Never attempt to converse enough with them to psyche them out and try to find out what they are up to. Some people are so arrogant about our wits and the Police's stupidity that we think we'll get a better end of the deal just asking a few questions. But our opening up., asking ANY question, may give the investigator information he might never otherwise stumble upon.

Behind each question is a body of information which may be revealed in the question itself or in a series of questions. In a casual chat with the police you stand one chance in a million of getting an accurate idea of what they are up to; at the same time, you are playing with other peoples lives. The history of the struggle is filled with Comrades sent to jail and to death on "frame-ups" based on just enough snippets of circumstantial evidence to give an aura of credibility to the State's charges.

In gathering information about the movement, the security services working with the Board of Deputies of British Jews, Searchlight, paid informers and local police will fight dirty. Sometimes when you open the door, unafraid and ready with a brush off, we get caught by an old interrogation trick. The police say *"We have some information which tends a) implicate you and some of your friends in running a few errands or such and such, a terrorist group, which we're attempting to get off the streets.. .If you could answer a few questions,I'm sure we could clear this all up. "* Your mouth drops: *"What the hell is he talking about ?"* Suddenly you're caught off guard and you are only too happy to tell the man **WHAT** you were really busy doing at the time and **WHO** can vouch for you. Maybe that's all they wanted to know- where you were and who was with you and now he has his answer.

So you can so by now that the best defence is to say nothing. So how do you say "No!" It really is quite simple.

Experience has shown that the best response after the caller identifies himself and flashes his badge is to say, "I have nothing to say to you. Goodbye." and shut the door.

If you have any reason at all to think you and the people you live with are likely to get hassled or if any of your friends are approached, it is time to think about preparing for a knock on the door. A good policy is to keep your door closed until you know who's on the other side. If you open your door for the police they can bust you for a crime they saw they saw or heard. CID/Police are known to physically jam their feet in the door and badger uncooperative people at the top of their lungs for half an hour or more. An excellant and inexpensive method of combating this is to fit a door chain, as if they want in you would have to close the door to release the chain, so tell them this, they remove their feet you shut the door and keep it shut.

If you've opened the door and find a couple of suspicious characters on the other side, you can make a good recovery by stepping outside and locking the door behind you before you refuse to talk. After that you might want to go and get some shopping. If you live in a group, try to sit down together and figure out collectively what is needless paranoia and what is prudent precaution.

If you have a portable tape recorder, you might want to keep it near the entrance to your house or apartment ready to tape your request for the police to leave you alone and get out of your doorway. If they continue to pester you, you may have a tape that is someday worth something in court. Also, write things down whenever you have contact with the police or notice any suspicious activity, especially possible surveillance. Write down and tape as much as you can: names badge and car number registration number, physical description, questions action etc. This information is the beginning of your legal protection against repression. Don't be surprised if the Special Branch or local police take their questions to parents, friends, employers and neighbours. Bits and pieces of information from nervous employers and upset parents may make up a mosaic of trouble for some of us. So try to anticipate the problem and handle it ahead of time with enough tact and humour to ease the situation.

DO NOT SPREAD information by explaining to your acquaintances why the security forces may be inquiring; they will NOT understand what is going on. Just say you would appreciate their not co-operating and ask them to let you know if they are contacted.

POINTS TO REMEMBER

1. LOOK before you open your door. This defuses any potential problem with not only the police. This is good practice in these days of rising crime. (You may consider investing in the small door camera which connect direct to your TV set. They are the size of a cigarette packet and cost around £100. You can then see on the TV who is at your door and record them if required.)

2. **DON'T** let police in without a warrant. They are NOT there to help you. They are trained to disrupt your life, even if you have nothing to do with any 'problem.'

3. **DON'T TALK!** No law requires that you talk with the police.

4. **NOTE DOWN NAMES,** badge numbers, registration numbers, physical descriptions etc.

5. Ask your friends, relatives, and employers NOT to co-operate and let you know if they've been contacted.

6. Keep cool. Stay calm

REMAIN SILENT!

THE NATIONAL SOCIALIST PRESS U.K.

The British National Socialist Movement is working towards the creation of an independent printing works and National Socialist press in the British Isles.

The regular news media of television, radio and national newspapers can never be relied upon to give a fair and representative portrayal of National Socialism. Nor will the media ever give a National Socialist perspective to news stories, so as a Movement we must create our own alternative media.

The spreading of the National Socialist message and the production of National Socialist literature is generally hampered by the lack of a central printing facility, production studio and design workshops.

The British Movement intends to change this situation and has setup an appeal to raise the necessary flinds. Target figures have been set and fund raising is underway.

Support publication of National Socialist literature and help to build the National Socialist Press U.K.

LETTERS TO THE EDITOR

Dear Broadsword,

Thank-you for the issue of Broadsword and London Calling. I didn't realise that the U.K. had so many non-whites living within its borders. My blood comes from the U.K, my great-great grandfather came over and I've always held that Pembroke pride and honor. It's in the blood to be loyal to our original homeland. I look at the history of the U.K. and wonder how it is that the "great Empire where the sun never sets", has lost so much. Our ancestors were fighters and explorers.... We as a race need to feel the pride of our ancestors, once we lose the sense of who we are as a people, then we are dead... I have written a poem that I believe will inspire some, and turn on a light in some of our brothers' heads...

P.P. Michigan. U.S.A.

WE MUST LIVE

We must live,but, in order for our race to live,
We, my brother, we must give.
Fight my brother, fight! Fight for the children who are White.
We must live!

We must never forget
our past, if we do our
race won't last
We must live!

J..ws influence our
minds, so we don't
love out kind.
We must live!

They say we are the
last of the White man,
I will fight for my
people and make a stand!
We must live!

Be strong and
carry yourself with pride,
my White brothers, I shall
never leave your side.
We must Live

We must give our
lives for our race, for
the past and the
future, that's the case.
We must live !

Dear Editor,

Today I received issue 6 of "The Broadsword" and greatly appreciated. very interesting reading, I was impressed by Jeff's article "Britain Awake". It's my opinion as well that the government of the day is to blame for the present economic problems.

White people who gripe and say that National Socialism is to blame for breeding proverty, don't understand that World War 2 was a racial conflict instigated by the International Zionists to turn White Brother against White Brother in order to hide their own intentions of politically and financially dominating the entire world, as they now do, unfortunately...Long live National Socialism and may the Eternal Flame kindled by Adolf Hitler forever burn and grow as it glows in our hearts everywhere.

Dear Comrades,

I am sorry for my tardy reply. I would like to thank you for your letter and magazine "Broadsword". I want to corroborate that your thoughts in your letter and "Broadsword" are helping me. Unfortunately I have not my own newsletter yet, but I am hoping for a favourable future.

Some words about common situation in Russia. The so-called anti-fascist bill is being debated by State Duma (Parliament). I am well informed about hidden motive history of that bill.

The main representatives of Jewish power in Russia are democrats, "enlightened" communists and orthodox communists. Though they are quarreling with each other they are the same criminal gang, post-Soviet elite. They are characterised by cynicism, yearning for gain and hatred of Aryan values.

My particular interests are the heroic line of modern life, basic tendencies of future of pure white race, militant literary styles. We live in field conditions and we have common enemies. Courage to be is the most remarkable phenomenon in our life. Never surrender your firearms !

We thank our many readers who send in letters. Space prevents us from printing them all, but keep the letters coming. Let's hear your views.
